AFRICA AMINI LIFE

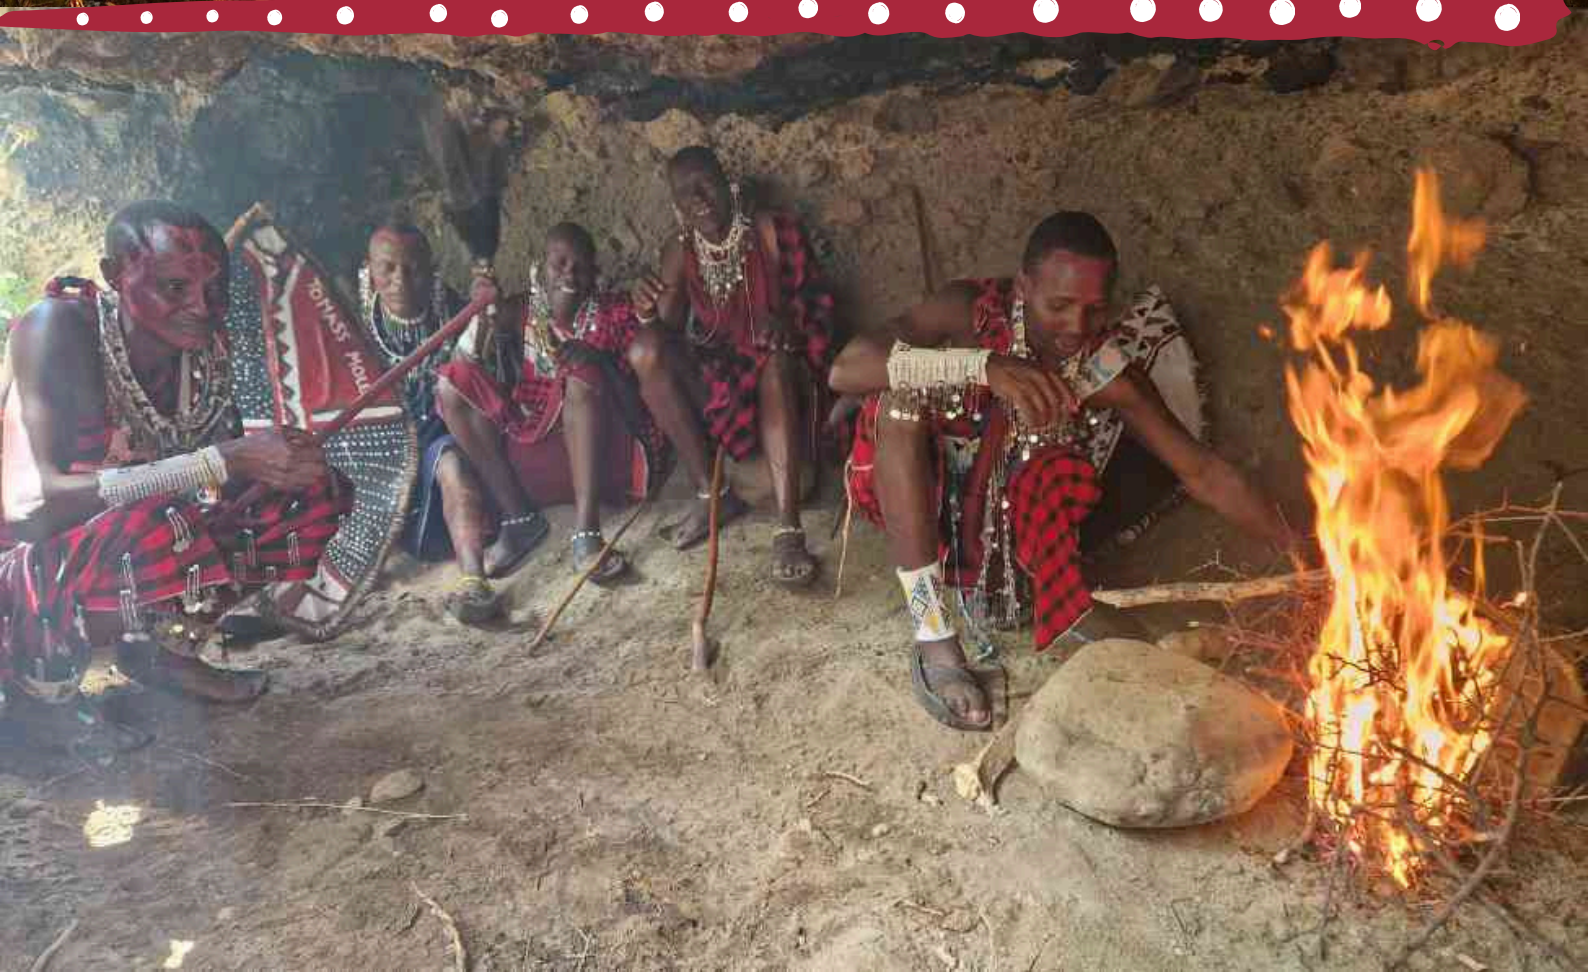

Experiences with impact

MUKURU SACRED SITE

This transformative adventure promises not just a journey through the stunning landscapes of Tanzania, but a profound healing journey into nature. Each day is crafted to offer a deeper connection with your environment and its people, nourishing your soul and imparting wonder at Africa's natural bounty.

A visit to the sacred site of Mukuru in the heart of Maasailand offers an exclusive opportunity to interact with the ancient healing traditions of the Maasai tribe. You will learn about Maasai medicinal plants, climb to sacred sites, be part of the life of the families of Mukuru village and receive blessings from their elders.

DAY 1

Arrive at Mukuru Sacred Site to be welcomed by the chants of our Maasai warriors.

After lunch, experience their healing rituals, dances and herbal medicines. Share dinner with them and listen to their ancestral stories around a bone fire.

Sleep in a cave for the first time in your life, accompanied by the sounds of silence and the African stars.

DAY 2

An early wake up call will be rewarded by a stunning sunrise on the top of Mukuru Mountain and a bush breakfast with views to Kilimanjaro and Mount Meru.

After a rest and lunch, your guide will accompany you to the Gorges along the river. When the sun sets maasai families gather at their homes. Feel welcomed in traditional bomas, connect to the families and their culture. Ask questions that have not been answered yet.

DAY 3

The Maasai of Mukuru invite you to feel the sounds of their ancestors in the whispering caves. Moments of silence to let time and your soul rest and listen to the answers of the winds. This is a morning ritual with a special blessing to take home.

After lunch you will be able to interact with our children in the Mukuru schools you are supporting with your stay.

A SPIRITUAL JOURNEY

The Kali Yuga is coming to an end. Amidst a longing for peace, the Maasai tribes are leaving behind the era of warfare. They not only pray for rain but also aspire to educate their children and participate in shaping a new, beautiful world.

Grateful to guests for schools, water, and food, they open their sacred sites so that others may also hear the whispers of their gods in their hearts. Change is in the air. Shared meals, dancing, and prayers mark days of the rebirth of love among people. It is as if we are reliving the times three million years ago in Africa, the cradle of humanity.

Climbing mountains, gazing from cozy caves at the majestic, snow-capped Kilimanjaro, suddenly one feels that all will be well. Phillipo, your companion, radiates his confidence deep into your heart, hoping it will remain there.
